EXPERIENCE

Software engineer | frontend

iVisual | May '24 - current

- Contributed to the development of iVisual's online tool, aimed to optimize the packaging design process through scientific data. Customers include large multinationals such as Danone and AB InBev.
- Worked on new features including a comprehensive product questionnaire and iVisual's Ideation tool which produces colour combinations, fonts and AI generated packaging suggestions.
- Utilised React, Next, and Tailwind CSS, consumed REST APIs, implemented Formik for form management and documented components using Storybook.
- Collaborated with a cross-functional team, refining requirements and guiding the product's direction during early development.
- Navigated a fast-paced startup environment with frequently changing requirements.

Freelance web developer

Jun '22 - May '24

- Developed websites for small businesses, incorporating features such as a custom booking system and e-commerce functionality.
- Collaborated closely with clients to understand their particular needs.
- Ensuring timely completion of projects and staying within the agreed budget.

Administrator surgical skills

RCSI Dublin | Apr '23 - May '24

- Coordinated surgical training courses including, faculty recruitment, curating online materials, providing technical support, etc.
- Managed clinical exams, ensuring adherence to rigorous standards.
- Maintained excellent relationships with stakeholders, promoting collaboration and effective communication.

Lab manager

Trinity College Dublin | Jun '21 - Apr '22

- Supported a team of 12 neuroscientists and optimised workflow processes to improve project outcomes.
- Managed a research budget and compiled financial reports.
- Upheld a safe and organised laboratory.

EDUCATION

MSc Animal Ecology

Lund University | '18 - '21

BSc Biology

Ghent University | '13 - '18
